

New Releases for April 2016

Adderly

Men's semi-rimless metal
Colors: Black, Brown

Frame Price: \$54.95

EYE	DBL	TEMPLE
55	18	140MM

The new Adderly frame is a big man's semi-rimless design with extended end pieces. This frame has a 59 fitting eye size. A very deep "B" will accommodate any progressive lens and the sturdy German-made hinges provide stability and comfort teamed with acetate temples.

Schubert

Men's Zyl
Colors: Black, Tortoise/Blue

Frame Price: \$54.95

EYE	DBL	TEMPLE
54	17	140mm

Most would agree that acetate frames are the most comfortable to wear. When the temples and the bridge are attached high on the frame, these acetate styles are the most comfortable made! Thin by design and deep for your progressive patients/customers, the Schubert will fit like a dream and feel like nothing your patient has worn before.

Wolf

Men's Zyl
Colors: Brown Fade, Grey Fade

Frame Price: \$54.95

EYE	DBL	TEMPLE
53	19	140mm

Yikes a men's acetate frame with a "keyhole bridge". I know most people in our industry think keyhole bridges aren't well suited and leave gaps above the nose. Try the Wolf on your men and see how well it fits – with no gaps. Great colors, quality workmanship, and as Alexander Julian would tell you, "not boring".

Purchase the 6 new releases for April and receive a Rechargeable Battery Pack!

eneloop is the perfect, long-life, pre-charged, energy and money saving, recyclable rechargeable battery which can now be charged and discharged even up to 2100 times.
